Frequently Asked Questions

When do I need to place my order?

It is Costco's goal to have your order in your hands 14 days after Costco receives it at the processing facility. Allow a few extra days when placing an order for the first time and remember to calculate the amount of time it may take for your prescription(s) request to reach the facility. Once Costco receives your order it will leave the facility within one to four days. Costco offers free standard shipping. Expedited shipping options are

available for an additional fee. If you do not receive your order in 14 days, contact Costco Mail Order Pharmacy at the toll-free number provided.

How can I ensure my order will not be delayed?

Please ensure you are providing Costco with a valid shipping address and valid payment information. Ensure your name, address and phone number are written legibly on all submitted documents including the original prescription(s). Your physician must provide complete directions for use. Costco cannot dispense an order without valid instructions; "use as directed" will not be accepted. Ensure your prescription is written for the maximum days supplied allowed by your plan (usually 90 days) and contains additional refills.

How will I know the cost of my prescription order?

It is your responsibility to know the co-pay(s) for your prescription order. For additional information, please contact your benefits provider.

When I receive my order, what will be included in the package?

Each package will include your prescription medication, prescription label and a drug monograph. All prescription bottles will be sealed with child-safety caps to prevent them from opening during shipment. If you select easy-open caps, they will be included in the package for you to switch once your package has safely arrived.
